

Soon we'll be reaching another horrific milestone in the war in Iraq – the death of the 2,000th U.S. service member. AFSC, Military Families Speak Out, and Gold Star Families for Peace are calling for people across the U.S. to stand up and say that the needless killing of U.S. troops and Iraqis must stop and that the resources funding this war are needed for other things. **When the death of the 2000th US service members is announced members of the Lansing community will join with people around the world who are calling for an end to the Iraq War .** The Iraq War has already committed us to aiding a generation of veterans and their families and to rebuilding Iraq. We need to meet these just obligations and stop the funding for further destruction so that our resources can be used to strengthen our communities and help those in need.
