Sponsored by the Lansing Peace Vigil Community

We are witnesses for peace & justice - Lansing area residents who advocate for non-violent strategies to end terrorism and war. We are united against terror, hate, discrimination and war. We believe that preemptive strikes and collective punishment are wrong, that U.S. military force will not provide security or justice and that war invites mutual extermination. We are calling upon our national leaders to stop bombing other countries and use diplomatic, political and economic means to bring about just solutions to conflicts in Iraq, Afghanistan, the Middle East, and elsewhere around the world.
